Neighborhood Based Service Delivery Unit consists of a Lieutenant, 6 Sergeants and 8 Police Officers. They are assigned to designated neighborhoods and work with city departments such as housing inspectors and public works employees.

NEIGHBORHOOD BASED SERVICE DELIVERY

The City of Des Moines offers a unique program to its citizens that combines the services of city departments to improve the quality of life in designated neighborhoods. Police Officers along with representatives from Zoning/Housing Code Enforcement, Public Works and Parks and Recreation focus their services in specific areas. The primary objective of these teams is to assist neighborhoods in identifying and prioritizing concerns, planning a course of action and implementing solutions to solve problems.
